

To whom it may concern,
Our family almost solely listens to K-Love at home and in our workplace. If they were displaced by a LPFM broadcaster providing other programming, we would be left without a quality radio/music provider for our family. Most of the other programming is unacceptable to us, either because it doesn't reach out to our young people (talk radio) or it has inappropriate subject matter. There is very little programming that provide a safe environment for our Children and co-workers to listen too, and this is extremely important to us.
Thank you for your time.
Brent
